

Back

Press the needle through the center of the cushion. Bring the string with the button for the backside through the needle.

Front

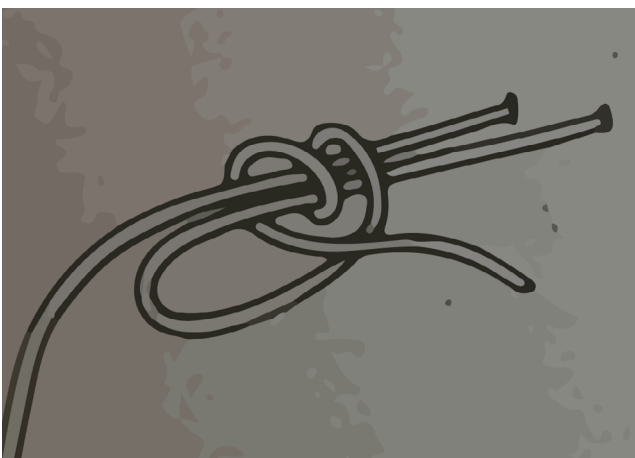

Pull the needle back through the cushion. Bring the button for the front through the string as shown above.

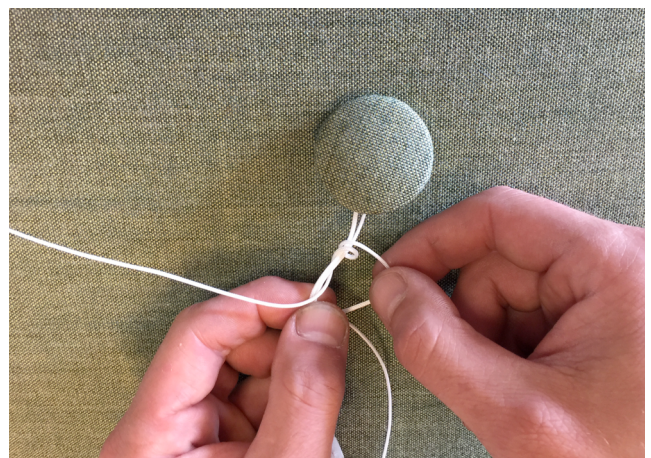

Bring the front button to the right position in the middle

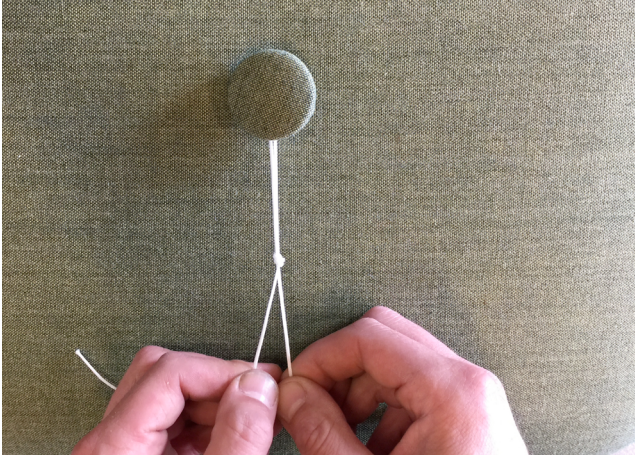

Make a knot as shown above.

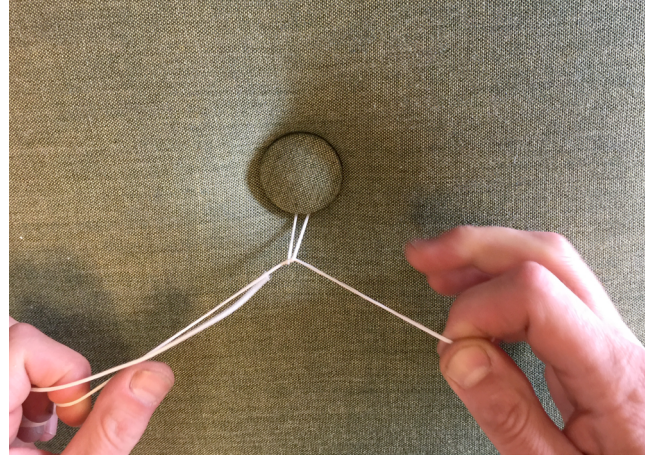

Make a knot as shown above.

Tighten the knot so that it ends under the button.

Finish by making two knots according to the picture and tense them separately. Cut off the remaining string.
